Every Trade

01 WE ARE YOUR PARTNER FOR
RESOURCE OUTSOURCING

02 SKILLED TRADE PROFESSIONALS
AND PROJECT TEAM

About Omni Source

OmniSource is a Dubai-based workforce solutions company specialising in connecting skilled trade professionals with project teams across the UAE's construction, MEP, and facilities sectors. Built on the belief that the right people are the backbone of every successful project, we go beyond simply filling positions — we match verified, experienced professionals to the exact demands of your site. From **scaffolding crews and MEP technicians to skilled cleaning staff**, every worker we deploy is screened, documented, and ready to perform from day one. Beyond manpower, we also offer **machinery and equipment rental across all construction scopes** — giving project teams a single, reliable partner for both the workforce and the tools they need on site. At OmniSource, we make

CIVIL

OmniSource supplies certified scaffolders, masons, foremen, civil helpers, and site support crews to UAE construction, fit-out, and infrastructure contractors. Every deployment is WPS-compliant, mobilization-ready, and screened for site experience — from specialist trades like scaffolding and masonry to the supervisory and support roles that keep projects moving. Built for contractors who need reliable manpower without the overhead of in-house recruitment, visa processing, or payroll exposure.

- . Scaffolders (certified)
- . Civil helpers
- . Scaffolding Supervisor
- . Tile masons
- . Painters
- . Waterproofing technicians
- . Carpenters (civil / formwork)
- . Civil Foreman

MEP

OmniSource supplies MEP workforce solution across the full skill range — from mechanical helpers to industrial and commercial electricians, HVAC and A/C technicians, duct installers, pipe fitters, and MEP supervisors. We deploy to commercial fit-outs, residential developments, industrial facilities, and warehouses, with every technician screened for relevant trade experience and certification where required. All deployments are supplied with on-site supervision when needed, so MEP contractors, FM companies, and project owners can scale technical capacity without absorbing the recruitment, visa, and payroll overhead.

- . **MEP supervisor**
- . **Industrial electrician**
- . **Commercial electrician**
- . **HVAC technician**
- . **A/C technician**
- . **Duct man**
- . **Insulation worker**
- . **Electromechanical helper**
- . **BMS technician**
- . **Electrical / Mechanical foreman**
- . **LV technician**
- . **ELV technician**
(BMS cabling, fire alarm, access control, CCTV, data)

CLEANING

OmniSource supplies cleaning and housekeeping workforce solution across the full skill range – from general helpers and janitors to specialist trades including IRATA-certified rope access facade cleaners, kitchen exhaust and duct cleaning crews, marble polishing technicians, and industrial cleaners. We serve hotels, restaurants, malls, high-rise residential and commercial towers, warehouses, and post-construction handover sites across the UAE. Every deployment is WPS-compliant and supplied with on-site supervision when required, so facility managers and contractors can scale cleaning capacity without taking on recruitment, visa, or payroll overhead.

- . **Rope access façade cleaners (IRATA certified)**
- . **Cleaning supervisors / FM site supervisors**
- . **Industrial / warehouse cleaners**
- . **Marble polishing technicians**
- . **Kitchen exhaust & duct cleaners**
- . **General cleaners**
- . **Janitors**
- . **Cleaning helpers**
- . **Housekeeping attendants**

MACHINERY & EQUIPMENTS

OmniSource provides machinery and equipment rental solutions across all construction and industrial scopes, supporting projects with reliable equipment and operational support when it is needed most. From heavy construction machinery to site equipment and access solutions, we help clients maintain smooth operations without delays. Our services are designed to support project timelines with dependable equipment availability, flexible rental options, and responsive service that keeps work moving efficiently on site.
